

Oil-Only

sorbents for petroleum based liquids

Our OIL-ONLY sorbent is a hydrophobic polypropylene product that absorbs and contains petroleum based liquids on land and water. It is lightweight, flame resistant, non-toxic and floats even when fully saturated. It absorbs up to 30 times it's own weight and is a cost-effective solution to your safety requirements.

- ✓ Suitable for absorbing Oils, Fuels and Solvents (not water)
- ✓ Used on land and water
- ✓ Capable of separating oil from water
- ✓ Floats on water even when fully saturated

Choose the grade of Pads and Rolls for your specific application

Sonic Bonded
Excellent sorbency, for general use with low lint

Laminated
Provides extra strength for more aggressive environments, highly absorbent with no lint

Colour: **WHITE**
